

Tim Taylor
SVP, Chief Supply Chain Officer
Jockey International

Tim brings a unique and extensive range of capabilities and experience that reflect his career in executive roles in the consumer goods supply chain – both in Australia, Asia & the USA. His track record reflects achievements across the end to end supply chain for iconic brands and businesses - such as Jockey International, Quiksilver, DC Shoes, Roxy, Bonds, Colorado and Diana Ferrari. In September 2017 Tim was appointed as Snr VP & CSCO for the Jockey international where he oversees the Demand & Supply Planning, Product Development and Raw Materials, Global Sourcing & Production, Quality and Warehousing and Distribution. Prior to this Tim spent 4 years as the Managing Director of Jockey’s Global Sourcing Office in Hong Kong where he and his team led the shift of business model from “manufacturer” to “sourced”. As Managing Director of the Quiksilver Asia Sourcing Tim led a team of 350 people across 6 offices in Asia to support the raw materials, product development, sourcing and production needs to the Quiksilver business in the Americas, Europe and APAC. Tim led the growth of sourcing turnover from \$200m to over \$300m whilst delivering significant product cost savings to the operating groups. As General Manager Group Sourcing for the Colorado Group Pty Ltd Tim led the development and execution of the groups sourcing strategy across 5 vertical brands with annual turnover of AUD \$450m to deliver cost savings, reductions in lead times, improved quality standards and the establishment of a China based sourcing team. As General Manager Pacific Brands (Asia) – based in Hong Kong Tim led the change of the office from a manufacturing coordinator to full scale sourcing office. Tim grew the operations from 20 people to over 180 people across four offices in Hong Kong, Shanghai, Hangzhou and Dongguan, with an annual FOB volume of USD\$200m. As Group Planning Manager – Pacific Brands Clothing Group Tim led the teams responsible for the end to end planning process from demand (order management and forecasting) to supply warehouse (planning, purchasing and shipping). Tim holds a bachelor’s degree in manufacturing management from Monash University and an MBA from the University of Melbourne.
