

**See, Touch, and  
Understand the Future  
in 2010 at the Supply  
Chain of the Future Lab™.  
A New Part of the CSCMP  
Education Experience.**

**New in 2010 and only at the CSCMP Annual Global Conference in San Diego, September 26-29, will be the Supply Chain of the Future Lab™.**

Showcased in 100,000 square feet, the Lab will take you to a world of automated innovation where you will see, first-hand, the technologies, processes, and solutions provided by high-performing supply chains. This is no movie but a hands-on, real-time operating supply chain. Technical experts will answer your most difficult questions and special educational sessions will be seamlessly integrated into CSCMP education tracks.

Only at CSCMP 2010 can you explore the world's largest and most innova-

tive Lab showcasing the future of supply chain innovation. The Supply Chain of the Future Lab™ is a collaborative effort between CSCMP, DBMA, and SCLA. For more information, call DBMA at +1 717.295.0033 or e-mail [ayoder@dbm-assoc.com](mailto:ayoder@dbm-assoc.com).

***Don't miss this cutting edge learning experience—a significant new dimension to the 2010 CSCMP annual conference.***
